"All of us learn and understand concepts better in context, and algebra is no exception. ... At every opportunity in this text, we demonstrate the usefulness and vitality of algebra-- and in doing so we make it accessible to every student. We help each student set reasonable, reachable goals at the beginning of each lesson, and we provide continuing reasons for all students to develop confidence and a sense of accomplishment in their work."--Pg. T2.

This unique resource uses 40 popular children's books as springboards to math learning. It's brimming with activities and reproducibles that focus on number sense, operations, fractions, patterns, measurement, money, time, probability, and much more.
