A "marvelous" Mediterranean memoir of an expatriate father raising his children in Italy—from the author of *Italian Neighbors* (The Washington Post). Tim Parks offers another lively firsthand account of Italian society and culture—this time focusing on all the little things that turn an ordinary newborn infant into a true Italian. When British-born Tim Parks heard a mother at the beach in Pescara shout to her son, "Alberto, don't sweat! No you can't go in the sea till eleven, it's still too cold, go and see your cousin in row three number fifty-two," he was inspired to write about parenting in Italy—which he was doing himself at the time after adopting the country as his own. In this humorous memoir, Parks offers an enchanting portrait of Italian childhood that shifts from comedy to despair in the time it takes to sing a lullaby. The result is "a wry, thoughtful, and often hilarious book . . . a parable of how our children, no matter what, are other than ourselves" (The New Yorker). "Glimpses of Italy that are fond, critical, pithy and penetrating." —The Atlanta Journal-Constitution

An Italian travelogue describes the trains that traverse the country, from the architecture of old

train stations to the new high-speed railways, and portrays the author's memorable encounters along the way.

"Am I giving the impression that I don't like the Veneto? It's not true. I love it. But like any place that's become home I hate it too." How does an Englishman cope when he moves to Italy - not the tourist idyll but the real Italy? When Tim Parks first moved to Verona he found it irresistible and infuriating in equal measure; this book is the story of his love affair with it. Infused with an objective passion, he unpicks the idiosyncrasies and nuances of Italian culture with wit and affection. Italian Neighbours is travel writing at its best.

The author of Italian Neighbors takes a lighthearted look at Italian family life with an eye for detail and character that reveals the nature of relationships and culminates in a beach holiday epitomizing the best in Italian life. 30,000 first printing. \$35,000 ad/promo. Tour.

Is Italy a united country, or a loose affiliation of warring states? Is Italian football (which we Americans know as "soccer") a sport, or an ill-disguised protraction of ancient enmities? After twenty years in the bel paese, Tim Parks goes on the road to follow the fortunes of his hometown soccer club, Hellas Verona, to pay a different kind of visit to some of the world's most beautiful cities, and to get a fresh take on the conundrum that is national character. From Udine to Catania, from the San Siro to the Olimpico, traveling with the raucous and unruly Verona fans—whose conduct is a cross between that of asylum inmates and the Keystone Kops—Tim Parks offers his highly personal account of one man's relationship with a country, its

people, and its national sport. The clubs are struggling, as always, to keep their heads above water in Series A. The fans, as always, are accused of vulgarity, racism, and violence. It's an election year and politics encroaches. The police are ambiguous, the journeys exhausting, the referees unforgivable, the anecdotes hilarious. And behind it all is the growing intuition that in a world stripped of idealism and bereft of religion, soccer offers a new and fiercely ironic way of forming community and engaging with the sacred.

The Medici are famous as the rulers of Florence at the high point of the Renaissance. Their power derived from the family bank, and this book tells the fascinating, frequently bloody story of the family and the dramatic development and collapse of their bank (from Cosimo who took it over in 1419 to his grandson Lorenzo the Magnificent who presided over its precipitous decline). The Medici faced two apparently insuperable problems: how did a banker deal with the fact that the Church regarded interest as a sin and had made it illegal? How in a small republic like Florence could he avoid having his wealth taken away by taxation? But the bank became indispensable to the Church. And the family completely subverted Florence's claims to being democratic. They ran the city. *Medici Money* explores a crucial moment in the passage from the Middle Ages to the Modern world, a moment when our own attitudes to money and morals were being formed. To read this book is to understand how much the Renaissance has to tell us about our own world. *Medici Money* is one of the launch titles in a new series, Atlas Books, edited by James Atlas. Atlas Books pairs fine writers with stories of the economic

forces that have shaped the world, in a new genre - the business book as literature.

The acclaimed author of *Italian Ways* returns with an exploration into Italy's past and present—following in the footsteps of Garibaldi's famed 250-mile journey across the Apennines. In the summer of 1849, Giuseppe Garibaldi, Italy's legendary revolutionary, was finally forced to abandon his defense of Rome. He and his men had held the besieged city for four long months, but now it was clear that only surrender would prevent slaughter and destruction at the hands of a huge French army. Against all odds, Garibaldi was determined to turn defeat into moral victory. On the evening of July 2, riding alongside his pregnant wife, Anita, he led 4,000 hastily assembled men to continue the struggle for national independence elsewhere. Hounded by both French and Austrian armies, the garibaldini marched hundreds of miles across the Apennines, Italy's mountainous spine, and after two months of skirmishes and adventures arrived in Ravenna with just 250 survivors. Best-selling author Tim Parks, together with his partner Eleonora, set out in the blazing summer of 2019 to follow Garibaldi and Anita's arduous journey through the heart of Italy. In *The Hero's Way* he delivers a superb travelogue that captures Garibaldi's determination, creativity, reckless courage, and profound belief. And he provides a fascinating portrait of Italy then and now, filled with unforgettable observations of Italian life and landscape, politics, and people.
