Over her 40-some years in the industry, Annie Leibovitz has photographed some of the most iconic figures across art, politics, music, and film—including John Lennon, Mick Jagger, Queen Elizabeth,...

~~Photography tips from Annie Leibovitz - MSN~~

Annie Leibovitz a legendary photographer who photographs celebrities, models, fashion designers, athletes, artists musicians, dancers, politicians and heads of state for Vanity Fair, Vogue, Rolling Stone and various advertising ads Two Days in the Life of Nancy Pelosi, Political Grandmaster for Vanity Fair, December 2019 issue

Documents the arc of Leibovitz's relationship with her companion, Susan Sontag, who died in 2004; the birth of her three daughters; and many events involving her large and robust family, including the death of her father. This book also features the portraits of public figures including the pregnant Demi Moore, and Nelson Mandela in Soweto.

Brings together a collection of seventy photographs--including portraits of musicians, actors, writers, and other celebrated personalities of American popular culture--taken by the chief photographer for "Rolling Stone" magazine over the past fifteen years

In this new collection from Annie Leibovitz, one of the most influential photographers of our time,

iconic portraits sit side by side never-before-published photographs. Afterword by Annie Leibovitz. Annie Leibovitz: Portraits 2005-2016 is the photographer's follow-up to her two landmark books, Annie Leibovitz: Photographs, 1970-1990 and A Photographer's Life, 1990-2005. In this new collection, Leibovitz has captured the most influential and compelling figures of the last decade in the style that has made her one of the most beloved talents of our time. Each of the photographs documents contemporary culture with an artist's eye, wit, and an uncanny ability to personalize even the most recognizable and distinguished figures.

A striking collection by the eminent photographer encompasses her visual translations of how people live and do their work, showcasing her images of historically and culturally relevant homes belonging to such famous figures as Sigmund Freud, Charles Darwin and Louisa May Alcott.

A visual narrative offers more than three hundred images that document the photographer's relationship with her late companion Susan Sontag, the birth of her daughters, the death of her father, and famous actors and politicians.

"When Benedikt Taschen asked the most important portrait photographer working today to collect her pictures in a SUMO-sized book, she was intrigued and challenged. The project took several years to develop and proved to be revelatory. Annie Leibovitz drew from over 40 years of work, starting with the viscerally intimate reportage she created for Rolling Stone magazine in the 1970s and extending through the more stylized portraiture of her work for Vanity Fair and Vogue. Celebrated images such as John Lennon and Yoko Ono entwined in a last embrace are printed alongside portraits that have rarely, and sometimes never before, been seen. Annie Leibovitz was able to present some of her famous group portraits in a format that proves that she is the master of the genre. Her pictures are at once intimate and iconic, wide-ranging stylistically and also uniquely hers. Annie Leibovitz is often imitated, particularly by younger photographers, but her work is somehow immediately recognizable. The bookends of the Leibovitz collection are the black-and-white photograph of Richard Nixon's helicopter lifting off from the White House lawn after he resigned as president in 1974 and the formal color portrait of Queen Elizabeth II taken in a drawing room of Buckingham Palace in 2007. In between are portraits that make up a family album of our time: actors, dancers, comedians, musicians, artists, writers, performance artists, journalists, athletes, businesspeople. Performance and power are recurring themes. A supplementary book contains essays by Annie Leibovitz, Graydon Carter, Hans Ulrich Obrist, and Paul Roth and short texts describing the subjects of each of the over 250 photographs."--Publisher.

Legendary photographer Annie Leibovitz's surprising account of her encounters with fashion over five decades

The photographs by Annie Leibovitz in Women, taken especially for the book, encompass a broad spectrum of subjects: a rap artist, an astronaut, two Supreme Court justices, farmers, coal miners, movie stars, showgirls, rodeo riders, socialites, reporters, dancers, a maid, a general, a surgeon, the First Lady of the United States, the secretary of state, a senator, rock stars, prostitutes, teachers, singers, athletes, poets, writers, painters, musicians, theater directors, political activists, performance artists, and businesswomen. "Each of these pictures must stand on its own," Susan Sontag writes in the essay that accompanies the portraits. "But the ensemble says, So this what women are now -- as different, as varied, as heroic, as forlorn, as conventional, as unconventional as this."

The famed photographer delivers this stunning collection of photos of the musicians, places, and people that enrich the landscape of American music.
