To show this, let \mathfrak{A} denote the vector space direct sum of \mathfrak{A} with the field of scalars \mathfrak{F} . Then elements of \mathfrak{A} are pairs (x, α) , where $x \in \mathfrak{A}$ and $\alpha \in \mathfrak{F}$. With norm defined by the relation $\| (x, \alpha) \| = \|x\| + |\alpha|$, \mathfrak{A} is a normed linear space and is a
