Benny Binion

A dramatic portrait of casino pioneer, murderous gangster and World Series of Poker founder Benny Binion traces his key role in shaping modern Las Vegas, revealing how his philanthropic talents and ruthless defeat of adversaries, including J. Edgar Hoover, made him a revered gambling legend.

Benny Binion was one of the revered figures in the history of gambling. Using once secret government documents this book shows how Binion helped shape modern Las Vegas.

Benny Binion was many things: a cowboy, a pioneering casino owner, a gangster, a killer, and founder of the hugely successful World Series of Poker. From a Texas backwater, Binion rose to prominence on a combination of vision, determination, and brutal expediency. His formula was simple: run a good business, cultivate the big boys, kill your enemies, and own the cops.Through a mix of cold-bloodedness, native intelligence, folksiness and philanthropy, Binion became one of the most revered figures in the history of gambling, and his showmanship, shrewdness and violence would come to dominate the Vegas scene. Veteran journalist Doug Swanson uses once-secret government documents and dogged reporting to show how Binion destroyed his rivals and outsmarted his adversaries, playing a crucial role in the shaping of modern Las Vegas.

"Swanson has done a crucial public service by exposing the barbarous side of the Rangers." —The New York Times Book Review A twenty-first century reckoning with the legendary Texas Rangers that does justice to their heroic moments while also documenting atrocities, brutality, oppression, and corruption The Texas Rangers came to life in 1823, when Texas was still part of Mexico. Nearly 200 years later, the Rangers are still going—one of the most famous of all law enforcement agencies. In Cult of Glory, Doug J. Swanson has written a sweeping account of the Rangers that chronicles their epic, daring escapades while showing how the white and propertied power structures of Texas used them as enforcers, protectors and officially sanctioned killers. Cult of Glory begins with the Rangers' emergence as conquerors of the wild and violent Texas frontier. They fought the fierce Comanches, chased outlaws, and served in the U.S. Army during the Mexican War. As Texas developed, the Rangers were called upon to catch rustlers, tame oil boomtowns, and patrol the perilous Texas-Mexico border. In the 1930s they began their transformation into a professionally trained police force. Countless movies, television shows, and pulp novels have celebrated the Rangers as Wild West supermen. In many cases, they deserve their plaudits. But often the truth has been obliterated. Swanson demonstrates how the Rangers and their supporters have operated a propaganda machine that turned agency disasters and misdeeds into fables of triumph, transformed murderous rampages—including the killing of scores of Mexican civilians—into valorous feats, and elevated scoundrels to sainthood. Cult of Glory sets the record straight. Beginning with the Texas Indian wars, Cult of Glory embraces the great, majestic arc of Lone Star history. It tells of border battles, range disputes, gunslingers, massacres, slavery, political intrigue, race riots, labor strife, and the dangerous lure of celebrity. And it reveals how legends of the American West—the real and the false—are truly made.

You have a great writing style, very credible, and entertaining. Those were dangerous times. Almost all of the guys are gone. A great book!... -Doyle Brunson, Poker Hall of Fame, author. He's as good a writer as he is a player. When it comes to poker tales...Johnny Hughes is your man.... -Anthony Holden, London, President of the International Federation of Poker, author ... a captivating raconteur and avid historian...brings them to life with a unique flair and panache...(He) paints word pictures with witty, lush brush strokes reminiscent of Tom Wolfe... -Paul "Dr. Pauly" McGuire, author ..the William Manchester of poker historians...a Hughes narrative is like lighting a lantern into the darkest recess of poker's subculture...provides the very best portrait of these unique real-life characters of anyone on record... -Nolan Dalla, Media Director. Reading...is only paralleled by listening to him tell those stories in real time...like putting yourself in the same room as it all unfolded...when the mob ruled Las Vegas...the real stories... -Ryan Sayer, OnTilt Radio, C.O.O., and Host. www.JohnnyHughes.com

In the early days, before he founded the Horseshoe Casino in Las Vegas and became the patron saint of the World Series of Poker, cowboy Benny Binion was a horse trader, a bootlegger, and the "boss gambler" of Dallas and Fort Worth, Texas. This book traces Binion's rise to power in the Dallas underworld during World War II. By 1946, more than two dozen "casinos" operated illegally in downtown Dallas in hotel suites, and Benny Binion owned at least half of them. The cowboy's only true rival for gambling supremacy in Texas was his former partner, Herbert Noble. For the first time ever, Gary Sleeper reveals the intricacies of the bloody feud between Binion and Noble, and their brutal war for control of Dallas and Fort Worth. Included are details of the thirteen attempts on Noble's life, the tragic murder of his wife, and Noble's bizarre plot to gain revenge by bombing Las Vegas from a private airplane.

The frigid Rocky Mountain air is nothing compared to the chill between a gorgeous scientist and a hardened FBI agent. But out in the middle of nowhere, all it takes is body heat to melt the snow. Alex Scott has been doing just fine on her own, studying mountain lions and living alone in a log cabin seventy-five miles from anywhere. The last thing she needs is some cocky guy, even one with looks to die for, falling from the sky. All FBI agent Tag Donovan wants is to find the mobster who killed his partner. But when he finds himself pushed off a low-flying plane, only to land face-down in the snow in a hail of bullets, survival is the only thing on his mind. Until he gets a good look at the beauty who drags him to safety. Ignoring each other isn't going to work when there's no one else around—especially when Alex could be the key to solving Tag's mystery. And though Tag's aching body wants nothing but bed rest, Alex's smoky voice makes him think of more exciting uses for the bed. And the table. And—well, after all, he's no snow-angel.

From the earliest days of the cattle drives through town, Fort Worth embraced, if not with open arms, then certainly with an open palm, the profit and excitement of illegal entertainment.

Traces the rise and fall of poker champion Stuey Ungar, offering insight into his meteoric career as one of the game's most feared tournament players, the factors behind his tragic change of circumstances, and his early death at the age of forty-five. Reprint. 35,000 first printing.

A 2020 New York Times notable book | One of the Chicago Tribune's best nonfiction books of 2020 "Complex, turbulent, as haunting as a pedal steel solo" —Jonathan Miles, The New York Times Book Review (Editors' Choice) "One of 21 books we can't wait to read in 2020" —Thrillist | A New York Times Book Review summer reading pick | A GQ best book of 2020 | Named one of the 10 best July books by The Washington Post and The Christian Science Monitor | A Kirkus Reviews hottest summer read | A Publishers Weekly summer reads staff pick The incredible true story of America's original—and forgotten—capital of vice Back in the days before Vegas was big, when the Mob was at its peak and neon lights were but a glimmer on the horizon, a little Southern town styled itself as a premier destination for the American leisure class. Hot Springs, Arkansas was home to healing waters, Art Deco splendor, and America's original national park—as well as horse racing, nearly a dozen illegal casinos, countless backrooms and brothels, and some of the country's most bald-faced criminals. Gangsters, gamblers, and gamines: all once flocked to America's forgotten capital of vice, a place where small-town hustlers and bigtime high-rollers could make their fortunes, and hide from the law. The Vapors is the extraordinary story of three individuals—spanning the golden decades of Hot Springs, from the 1930s through the 1960s—and the lavish casino whose spectacular rise and fall would bring them together before blowing them apart. Hazel Hill was still a young girl when legendary mobster Owney Madden rolled into town in his convertible, fresh off a crime spree in New York. He quickly established himself as the gentleman Godfather of Hot Springs, cutting barroom deals and buying stakes in the clubs at which Hazel made her living—and drank away her sorrows. Owney's protégé was Dane Harris, the son of a Cherokee bootlegger who rose through the town's ranks to become Boss Gambler. It was his idea to build The Vapors, a pleasure palace more spectacular than any the town had ever seen, and an establishment to rival anything on the Vegas Strip or Broadway in sophistication and supercharged glamour. In this riveting work of forgotten history, native Arkansan David Hill plots the trajectory of everything from organized crime to America's fraught racial past, examining how a town synonymous with white gangsters supported a burgeoning black middle class. He reveals how the louche underbelly of the South was also home to veterans hospitals and baseball's spring training grounds, giving rise to everyone from Babe Ruth to President Bill Clinton. Infused with the sights and sounds of America's entertainment heyday—jazz orchestras and auctioneers, slot machines and suited comedians—The Vapors is an arresting glimpse into a bygone era of American vice.
