many, many resources for homeschoolers who want to work on STEM concepts with their kids. Each of the resources are grouped by category. For example, if you want to focus on math, you can browse plenty of awesome math projects.

### How to Build a Toothpick Bridge - Look! We're Learning!

In this project, teams of up to three students will construct a bridge out of only toothpicks. This toothpick bridge must be able to hold a predetermined load without failing. Teams will research the style of bridges, create a three-view diagram of a bridge, build it, test it and complete a presentation about the project and its connection to geometry and the design process.

Cut the toothpicks to the right size. Lay down all the toothpicks that are supposed to be vertical. Put glue on the toothpicks. Put the horizontal toothpicks that are on the basic structure. Glue every thing together.

Toothpick Bridge : 10 Steps (with Pictures) - Instructables

Sketch the model of your bridge on the graph paper. It's recommended to give a square foundation to your model, because such a base will make the bridge strong. Spread wax paper over the sketch and trace out the drawing on the wax paper. Put the toothpicks over the pencil marks on the wax paper and glue them together.
