Campbell Hausfeld disclaims any liability whatsoever for any loss, personal injury or damage. General Safety Since the air compressor and other components (material pump, spray guns, filters, lubricators, hoses, etc.) used make up a high pressure pumping system, the following safety precautions must be observed at all times:

~~Electric Air Compressor—Campbell Hausfeld~~

this compressor. The ASME safety valve must have sufficient flow and pressure ratings to protect the pressurized components from bursting. The flow rating can be found in the parts manual. The safety valve in the intercooler does not provide system protection. Maximum operating pressure is 135 psi for single stage compressors. Do not operate with
