Written by Stu Maschwitz, co-founder of the Orphanage (the legendary guerrilla visual effects studio responsible for amazing and award-winning effects in such movies as Sin City, The Day After Tomorrow, and Harry Potter and the Goblet of Fire), this book is a must-have for all those budding filmmakers and students who want to produce action movies with visual effects but don't have Hollywood budgets. The Orphanage was created by three twenty-something visual effects veterans who wanted to make their own feature films and discovered they could do this by utilizing home computers, off the shelf software, and approaching things artistically. This guide details exactly how to do this: from planning and selecting the necessary cameras, software, and equipment, to creating specific special effects

(including gunfire, Kung Fu fighting, car chases, dismemberment, and more) to editing and mixing sound and music. Its mantra is that the best, low-budget action moviemakers must visualize the end product first in order to reverse-engineer the least expensive way to get there. Readers will learn how to integrate visual effects into every aspect of filmmaking--before filming, during filming and with "in camera" shots, and with computers in postproduction. Throughout the book, the author makes specific references to and uses popular action movies (both low and big-budget) as detailed examples--including *El Mariachi*, *La Femme Nikita*, *Die Hard*, and *Terminator 2*. Note from the Publisher: If you have the 3rd printing of *The DV Rebel 's Guide*, your disc may be missing the data files that accompany the book. How to take advantage of the web's ability to provide cheap worldwide distribution and make film of professional quality using software.

Documentary films have enjoyed a huge resurgence over the last few years, and there's a new generation of filmmakers wanting to get involved. In addition, the digital revolution has made documentaries even more accessible to the general filmmaker. Documentary films can now be shot professionally using cheaper equipment, and smaller cameras enable the documentarian to be less intrusive and therefore more intimate in the subjects' lives. With an increasing number of documentaries making it to the big screen (and enjoying ongoing sales on DVD), the time is right for an information-packed handbook that will guide new filmmakers towards potential artistic and commercial success. *The Documentary Film Makers Handbook* features incisive and helpful interviews with dozens of industry professionals, on subjects as diverse as interview techniques, the NBC News Archive, music rights, setting up your own company, the Film Arts Foundation, pitching your proposal, the Sundance Documentary Fund, the Documentary Channel, the British Film Council, camera hire, filmmaking ethics, working with kids, editing your documentary, and DVD distribution. The book also includes in-depth case studies of some of the most successful and acclaimed documentary films of recent years, including *Mad Hot Ballroom*, *Born Into Brothels*, *Touching the Void*, *Beneath the Veil*, and *Amandla!* *The Documentary Film Makers Handbook* will be an essential resource for anyone who wants to know more about breaking into this exciting field.

Packed with information and advice acquired over years of teaching wildlife filmmaking, Warren guides readers through all aspects of making a wildlife film from choosing a camcorder to editing the final product.

Whether you've mastered the basics of Final Cut Pro and want to take your skills to the next level, or if you're a video editor new to Final Cut Pro and looking to put your own system together, this book is for you. Written by "chawla," a Final Cut Pro guru and veteran moderator on 2-Pop/Creative Cow, this book covers the interface basics and workflow but goes beyond to address intermediate techniques and timesaving tips for professional results. Roberts does not assume you have an IT staff on hand and therefore goes into crucial issues of set up, configuration, consumer advice on hardware purchasing, and troubleshooting. Equally valuable is coverage of working with formats such as standard definition, uncompressed, and FireWire DV.

*The International Film Business* examines the independent film sector as a business, and addresses the specific skills and knowledge it demands. It describes both the present state of the industry, the significant digital and social media developments that are continuing to take place, and what changes these might effect. *The International Film Business*: describes and analyses the present structure of the film industry as a business, with a specific focus on the film value chain discusses and analyses current digital technology and how it potentially may change the structure and opportunities offered by the industry in the future provides information and advice on the different business and management skills and strategies includes case studies on a variety of films including *The Guard* (2011), *The King 's Speech* (2010), *The Best Exotic Marigold Hotel* (2012), *Cloverfield* (2008), *Pobby & Dingan* (aka *Opal Dream*, 2005), *Confessions of a Dangerous Mind* (2002), *The Reckoning* (2002) and *The Mother* (2003), and company case studies on Pixar, Renaissance, Redbus and Zentropa.
