The other plan for today was to begin Unit 7 by completing the Rearranging Atoms activity. We do not have time for the nail lab, so I figured this would be a good way to introduce balancing equations. The plan was to do the Describing Chemical Reactions lab tomorrow, since today's activity seemed very straight forward.

~~U7 Rearranging Atoms.doc—Chemistry
2013 Unit 7 ...~~

Unit 7: Chemical reactions. Chemical reactions are an essential part of chemistry. They are the foundation for studying the subject. When chemicals react with one another they rearrange their atoms to form new substances. When chemicals react atoms are not lost or gained in the process, they simply rearrange and form new bonds.
