With the luxury of their materials, technical precision, beauty, and aesthetic grandeur, Byzantine mosaics, particularly the wall mosaics, constitute the most impressive manifestation of Byzantine monumental painting. Highly expensive and laborious works of art, they were commissioned and dedicated by emperors, dignitaries, state officials and members of the Church hierarchy, in order to enhance the dwellings of Divinity, important churches and monasteries; and at the same time to manifest the power, glory and legendary wealth of His earthly representatives. A brilliant selection of mosaics from twenty-five famous monuments are presented here by Nano Chatzidakis, Professor of Byzantine Art and Archaeology at the University of Ioannina. In historical and stylistic terms, they cover the development of mosaic art from the 5th to the 14th century, which is described and analysed efficiently by the author in the first part of the volume. The unique pictorial character and special artistic importance of each individual mosaic ensemble presented in this volume is superbly illustrated and emerges strikingly through a full discussion of the stylistic and aesthetic physiognomy of the mosaics it comprises, and a brief reference to the monument it adorns.

The authors conduct a tour through New York's underground museum of contemporary art, works commissioned by MTA Arts for Transit for the subway system. 200 full-color illustrations.

In ancient times, it was used, to make needlework designs, which were beautiful, imaginative and creative. All one needed was plenty of time, and the will to make something beautiful which would be passed on in the family as an heirloom. And that is why, when I was at school, it was necessary for all of us students to learn how to embroider a fine seam, do crusted samplers, and learn other engine needlework arts and crafts, like lace making, which were traditionally taught to the nuns in their convents. As they were our teachers, we learned how to make Irish lace, and other needlepoint projects, using a large number of stitches like Florentine stitch, basket weave stitch, Cashmere stitch, chain stitch, Continental stitch, diamond eyelet stitch, cross stitch, French knots, cross stitch frame, reverse basket weave stitch, mosaic stitch, slanting goblin stitch, Smyrna stitch, straight goblin stitch, tent stitch, upright cross stitch, triple cross stitch, tent stitch, etc. Many of these stitches are traditional and many of them have been forgotten, because people really do not have the time, energy, or the inclination to sit for hours, doing embroidery on a hoop, like a lady of leisure or like Mary Queen of Scots, with her 4 Mary's, her ladies in waiting, who were her constant companions at court and during her long years of imprisonment, where they just sat quietly, throughout the day, embroidering pieces of fine art. Needlepoint is normally done on canvas, which is a sturdy fabric built to last. It is an open weave fabric. It is used as a basic framework for the stitches that you are going to work into it. It is available in a large number of weaves, and the sizes are arranged according to the number of threads present vertically per inch.
