I'm damaged. They're damaged too. The last thing we need... is each other. I'm done with dominants. Been there, had one, have the scars to prove it. I'm all about work now, about growing my private investigator business. I have no time for anything else.Then a mysterious client hires me to investigate a case of blackmail at Club Menage, and he assigns me a pair of guards. Two men who knew me at my worst: Adrian Lockhart and Brody Payne.I've always been attracted to them.Always imagined what it would feel like to be bent over their knees.Always craved their firm touch on my body.But I've been burned before. Every instinct tells me to leave them alone.To turn down the job. To walk away and stay safe.I should listen to that voice of self-preservation, but I don't.I'm damaged. They're damaged too. One night will ruin us forever. Author's Note: Claiming is a standalone ménage romance with a HEA ending. No cheating, no cliffhangers! An earlier version was previously released in a boxed set. This version has been significantly modified and extended.

Lose yourself in this taboo kinky bondage romance by USA Today Bestselling romance author Ophelia Bell One is bad. Two is unforgivable. But three... three is the jackpot. When my best friend Casey ghosted me for an entire summer, my life took a crazy turn. So crazy, I think I might've just circled back to our last conversation the night after she popped her cherry with two honest-to-god Doms. Now I really need to talk to her because I think for the first time I might be able to one-up her in the kink department. Spoiler alert: I have my own pair of kinky guys now too. The twist? Mine are twins. Reuniting with them after three years apart is more mind-blowing than I can imagine. We're no longer innocent, limited by circumstance, and they've been busy, inventing and building the most epic sex toy I've ever seen. When a sexy venture capitalist arrives to invest in the twins' fancy sex machine, all three of us are in a run for our money. Not only does the investor want to gamble to the tune of millions for the plans, he wants to own it. And he's willing to invest even more to have the inventors and their girlfriend.
