Marvel's super-sized "Adamantium Collection"-style format continues, shining a well-deserved spotlight on a true Marvel classic! Within the Marvel Universe, heroes soar high in the skies, ready to battle the villains who threaten their world. Yet living in the shadow of these extraordinary icons are ordinary men and women, who view the "Marvels" with a mixture of fear, disbelief, envy and admiration. Among them is Phil Sheldon, a New York City photojournalist who dedicates his career to covering the exploits of the Marvels and their effect on humankind. A richly painted historical overview of the entire Marvel Universe, Marvels spans the 1939 debut of the Human Torch to the fearsome coming of the world-devouring Galactus, culminating in the shocking death of Gwen Stacy, Spider-Man's first love. Plus: an extensive and gorgeous Alex Ross art gallery! COLLECTING: MARVELS 0-4

Take Me To Truth is the first book to present a practical guide to the six stages involved in shedding our distorted ego perception. It explains why our search for real happiness has eluded us and how to perceive the Love for which we all yearn so deeply. As Gary Renard says in the Foreword... despite the thousands of things we may appear to have to choose from in this world, there are really only two things, and only one of them is real. The ego is not. Take me to Truth heralds the next crucial step in the pursuit of evolutionary consciousness.
