At 2am on the morning of the 3rd of June 1940, General Harold Alexander searched along the quayside, holding onto his megaphone and called ‘Is anyone there? Is anyone there?, before turning his boat back towards England. Tradition tells us that the dramatic events of the evacuation of Dunkirk, in which 300,000 BEF servicemen escaped the Nazis, was a victory gained from the jaws of defeat. For the first time, rather than telling the tale of the 300,000 who escaped, Sean Longden reveals the story of the 40,000 men sacrificed in the rearguard battles. On the beaches and sand dunes, besides the roads and amidst the ruins lay the corpses of hundreds who had not reached the boats. Elsewhere, hospitals full of the sick and wounded who had been left behind to receive treatment from the enemy, s doctors. And further afield, still fighting hard alongside their French allies - was the entire 51st Highland Division, whose war had not finished as the last boats slipped away. Also scattered across the countryside were hundreds of lost and lonely soldiers. These ‘evaders... had also missed the boats and were now desperately trying to make their own way home, either by walking across France or rowing across the channel. The majority, however, were now prisoners of war who were forced to walk on the death marches all the way to the camps in Germany and Poland, where they were forgotten until 1945. Describes the events surrounding the Battle of Dunkirk and the rescue of British troops from the beaches of Dunkirk during World War II.

“ “ “ Special 75th Anniversary Edition “ “ “ Hugh Sebag-Montefiore’s Dunkirk: Fight to the Last Man tells the story of the rescue in May 1940 of British soldiers fleeing capture and defeat by the Nazis at Dunkirk. Dunkirk was not just about what happened at sea and on the beaches. The evacuation would never have succeeded had it not been for the tenacity of the British soldiers who stayed behind to ensure they got away. Men like Sergeant Major Gus Jennings who died smothering a German stick bomb in the church at Esquelbecq in an effort to save his comrades, and Captain Marcus Ervine-Andrews VC who single-handedly held back a German attack on the Dunkirk perimeter thereby allowing the British line to form up behind him. Told to stand and fight to the last man, these brave few battalions fought in whatever manner they could to buy precious time for the evacuation. Outnumbered and outgunned, they launched spectacular and heroic attacks time and again, despite ferocious fighting and the knowledge that for many only capture or death would end their struggle. ‘A searing story... both meticulous military history and a deeply moving testimony to the extraordinary personal bravery of individual soldiers’ Tim Gardam, The Times ‘Sebag-Montefiore tells [the story] with gusto, a remarkable attention to detail and an inexhaustible appetite for tracking down the evidence’ Richard Overy, Telegraph Hugh Sebag-Montefiore was a barrister before becoming a journalist and then an author. He wrote the best-selling Engines: The Battle for the Code. One of his ancestors was evacuated from Dunkirk.

Christopher Nolan’s previous films have reflected the uncertainties of the twentieth-first century. With Dunkirk, Nolan has gone back into the past and brought to life one of the momentous events of the twentieth-century - the evacuation of British troops from Dunkirk, telling the tale by land, sea, and sky. Dunkirk opens as hundreds of thousands of British and Allied troops are surrounded by enemy forces. Trapped on the beach with their backs to the sea, they face an impossible situation as the enemy closes in. The film features a prestigious cast, including Kenneth Branagh, Cillian Murphy, and newcomer Fionn Whitehead, with Mark Rylance and Tom Hardy. The screenplay is accompanied by a conversation about the film between Christopher Nolan and Jonathan Nolan, as well as selected storyboards.

On the shores of Lake Erie, the city of Dunkirk rose into a commercial fishing center, lake port, and successful industrial city. The lake provided an invaluable natural resource and allowed the coastal community to flourish. The inspired leadership of individual residents, coupled with the arrival of waves of hardworking immigrants, contributed to Dunkirk’s place in the industrial movement of the early 1800s to the mid-1900s. As it grew, the community of Dunkirk hosted steamships in its harbor in 1810, greeted the arrival of the first train to connect the Atlantic and the Great Lakes in 1851, and produced massive steam locomotives for over half a century.

Describes how a flotilla of small boats crossed the English Channel in May 1940 to rescue thousands of British and French soldiers trapped on the French coast near Dunkirk by the invading forces of Nazi Germany.

From the author of the Sunday Times bestseller The Secret Life of Blochley Park When Churchill made one of the most inspiring speeches of the 20th century - ‘we will fight them on the beaches’ – he was giving thanks for the miracle of deliverance, the harrowing and breathless evacuation of over 338,000 troops from the beaches and harbour at Dunkirk. Churchill was determined it shouldn ’ t be labelled a victory. He was already too late. Hours later, broadcaster JB Priestley was to call it ‘ an absurd English epic ’. Those days of Dunkirk are still invoked now whenever the nation finds itself in any kind of crisis. But there is a wider story too that involves a very large number of civilians - from nurses to racing enthusiasts, trades union leaders to dance hall managers, novelists to seaside cat é owners. And even wider yet, a story that starts in September 1939, of young civilian men being trained for a war that was already 25 years out of date; and the increasing suspense – and occasional surrealism - of the Phoney War. The ‘ absurd epic ’ of Dunkirk – told here through fresh interviews with veterans, plus unseen letters and archival material – is the story of how an old-fashioned island was brutally forced into the modernity of World War Two.

The subject of the new major film by Christopher Nolan it could have been the biggest military disaster suffered by the British in the Second World War, but against all odds the British Army was successfully evacuated, and ‘Dunkirk spirit’ became synonymous with the strength of the British people in adversity. On the same day that Winston Churchill became Prime Minister, Nazi troops invaded Holland, Luxembourg and Belgium. The eight-month period of calm that had existed since the declaration of war was over. But the defences constructed by the Allies in preparation failed to repel a German army with superior tactics. The British Expeditionary Force soon found themselves in an increasingly chaotic retreat. By the end of May 1940, over 400,000 Allied troops were trapped in and around the port of Dunkirk without shelter or supplies. Hitler’s army was just ten miles away. On 26 May, the British Admiralty launched Operation Dynamo. This famous rescue mission sent every available vessel – from navy destroyers and troopships to pleasure cruisers and fishing boats – over the Channel to Dunkirk. Of the 650 ‘Little Ships’ that sailed to Dunkirk, 235 were sunk by German aircraft or mines, but over this nine day period 338,000 British and French troops were safely evacuated. Drawing on the wealth of material from the Imperial War Museum Sound Archive, Forgotten Voices of Dunkirk presents in the words of both rescued and rescuers in an intimate and dramatic account of what Winston Churchill described as a ‘miracle of deliverance’.
