Will their exploitation and use now destroy their value for future generations? Should they simply be kept safely and as economically as possible as a resource for the future? Fragments of the World examines these questions, first reviewing the history of collecting and of collections, then discussing the ways in which the collections themselves are being used today.

The unconscious is always at play, rearranging conscious memories in time and space, juxtaposing some and splitting or reshaping others, suppressing or recalling. Memory has been likened to stones from antiquity that are re-used to make different, later buildings." – Suzanne Keene, Fragments of the World: Uses of Museum Collections
