this mentality at the outset, couples therapy is not always successful or enjoyable--for either the client or the therapist. It is also an area of practice that is often given short shrift in training programs that predominantly focus on clinical skills in working with children and adolescents, group work, practice in specific settings, and assessment and treatment of mental disorders. Innovative Skills to Increase Cohesion and Communication in Couples discusses evidence-based clinical techniques and skills that support and nurture couples in their

relationship. Each chapter begins with a succinct overview of a technique, evidence that supports it, and ideas for assessment to ensure that it is appropriate for the couple. Subsequent sections of each chapter provide clear examples of approaches so that new or seasoned clinicians will have the requisite knowledge for effective implementation, required materials, suitable locations for use, and personal preparation. The text serves as an essential resource to clinicians and social work, counseling, or psychology students and professors.

9780215542731), renewable industries could lead a recovery in the North East's manufacturing industry. The Committee states that the region is well placed to benefit from the growing global market for green technologies, but warns that British innovation and ideas could be lost as other countries benefit from quicker commercial development and implementation. World-class renewable energy companies in the North East - such as the New and Renewable Energy Centre (NaREC) at Blyth, the North East Process

Industries Cluster (NEPIC) on Teesside, and NETPark, the North East Technology park in County Durham - could put the region at the forefront of the Government's efforts to turn the UK into a low-carbon economy. The Committee warns though, that the UK's cumbersome and slow planning process poses a significant risk to long-term development in the North East as businesses from countries like China seek quicker, guaranteed sites elsewhere in Europe. The report also states that the Government should explore incentives to encourage local development of

renewable and clean energy. Also, underinvestment in transport links is proving detrimental to investment in the region.

This book seeks to increase understanding of the links between skills and innovation. It explores the wide range of skills required, and it presents data and evidence on countries' stocks and flows of skills and the links between skill inputs and innovation outputs.
