Integrating Technology in English Language Arts Teacher Education investigates the technology practices teacher candidates in the US are being introduced to, how they are using these practices in classrooms, and how technology can be effectively integrated into English teacher education programs. By drawing upon findings from extensive longitudinal studies into teacher education programs in the US, this timely volume addresses critical themes relating to the integration of technology in education, including:

- Teaching with technology
- Technology for collaboration
- Technology for individualized learning and assessment

By analyzing the experiences of teacher educators and

candidates, and offering detailed analysis of the content, practices, and skills being taught to pre-service English teachers, Pasternak examines the entities that drive or inhibit the adoption of technology into the secondary English language arts (ELA) curriculum. This volume will resonate with an international audience of post-graduate scholars and researchers interested in the fields of teacher education, English language arts, and the relationship between technology and classroom practice.

As today's teachers prepare to instruct a new generation of students, the question is no longer whether technology should be integrated into

File Type PDF Integrating Educational Technology

the classroom, but only “how?”

Forced to combat shorter attention spans and an excess of stimuli, teachers sometimes see technology as a threat rather than a potential enhancement to traditional teaching methods. The Handbook of Research on Educational Technology Integration and Active Learning explores the need for new professional development opportunities for teachers and educators as they utilize emerging technologies to enhance the learning experience. Highlighting the advancements of ubiquitous computing, authentic learning, and student-centered instruction, this book is an essential reference source for educators, academics, students, researchers, and librarians.

With the emergence of innovative

technologies, the digital nature of learning environments has changed the face of education. The integration of these technologies into classroom instruction is essential for promoting student learning. Literacy Enrichment and Technology Integration in Pre-Service Teacher Education examines the various strategies to resolve the challenges of technology integrations for teachers while offering best practices for transforming education. Focusing on the future of technology integration in education; this book is an essential tool for administrators, technology leaders, faculty, teachers, technology staff, and other educational technology stakeholders in various education-related disciplines.
