## ~~300 Core Java Interview Questions — javatpoint~~

In Java, Strings are immutable and are stored in the String pool. What this means is that, once a String is created, it stays in the pool in memory until being garbage collected.

Therefore, even after you're

# Access Free Java Interview Questions And Answers

done processing the string value (e.g., the password), it remains available in memory for an indeterminate period of time thereafter (again, until being garbage collected) which you have ...
