And ~~Teamwork~~, hence successful health systems will need to build a bigger, more able group of leader-managers. Performance will depend upon development, adaptive development.

~~Culture, Leadership & Performance: On Leading Change in ...~~

Instead of leading change, many health care organizations have reacted slowly to the need for change. Rather than view change as a necessary and expected outcome of the rapid developments in medicine, many yearn for a return of the "golden age of medicine," when it was perceived that the status quo was not being threatened by external forces.
