Loner is a gripping novel about a Harvard freshman whose infatuation with a classmate takes a dark, obsessive turn. David Federman has never felt appreciated. An academically gifted yet painfully forgettable member of his New Jersey high school class, the withdrawn, mild-mannered freshman arrives at Harvard fully expecting to be embraced by a new tribe of high-achieving peers.

~~Loner: A Novel by Teddy Wayne, Paperback | Barnes & Noble®~~

Loner is a well-crafted, caffeinated composition about a volatile, socially-impaired Harvard freshman from New Jersey and his poco loco fixation on an upper crust co-ed from Manhattan's upper East Side, who is not quite as transparent as she seems. Teddy Wayne builds this relationship slowly at first, then deftly thrusts the reader into literary whitewater rapids in which I kept looking for the next dangerous rocks.

"Loner is a brave book that takes up the calling of literature to unsettle the reader into new understanding of the world. Wayne employs extraordinarily fine psychological brushwork to produce something rare in our desensitized era: a genuinely disturbing portrait, not just of a fundamentally unreliable narrator but of a culture that prizes class, achievement, and beauty over nourishing human connection.

This novel was pretty fun, for what it was. Not a very deep plot or realistic characters, but at least it was enjoyable. I'd even go so far as to say it was more entertaining than something like To Deprive a Deprived Person. Shame it was discontinued, though. Probably not worth picking up, given how little of it there is.
