Mary Ainsworth - Wikipedia

From Wikipedia, the free encyclopedia The Strange situation is a procedure devised by Mary Ainsworth in the 1970s to observe attachment in children, that is relationships between a caregiver and child. It applies to children between the age of nine and 18 months.

Strange situation - Wikipedia

Ainsworth's student Mary Main theorized that avoidant behaviour in the Strange Situation Procedure should be regarded as "a conditional strategy, which paradoxically permits whatever proximity is possible under conditions of maternal rejection" by de-emphasising attachment needs.

Attachment theory - Wikipedia
