Presenting an alternative to the formal, corporate-style poses of yesteryear, this book offers a modern, vibrant approach that aims to capture a moment in the lifestyle of the person or persons in the picture. Clear, concise text discusses the essential technical aspects of photography from choosing a camera and equipment to an appreciation of exposure, aperture, metering, shutter speed, depth of field and white balance settings, in addition to how natural light, color and movement affect a photograph. A guide to posing helps to ensure dynamic and arresting images. Along with advice on setting up a small studio at home, choice of backgrounds and using artificial light, there are hints and tips on pre-shoot preparations such as make-up, hair styling and suitable clothing for the subject of the portrait. Post-production techniques include skin retouching and color correction, plus a guide to printing options and presentation.

100 and more Women Photographic Portraits. 100 and more moments of Gold !! What I have learned from women is much more than I expected. And more than I can really understand. Photographic Portraits of Women can only hardly represent the richness and complexity of nuance that a woman can feel, express, suggest. A Portrait Experience has very little to do with photography, complex techniques, or expensive cameras. Those are not so relevant. Necessary knowledge, but that is not the focus. Respect, self-awareness, dialogue and trust are needed to welcome a woman willing to be portrayed. Consequently the magic will happen. Women who judge themselves too much and force themselves into a predefined image, reveal their beauty when they are loved, respected and listened. If we are able to be true to ourselves, and communicate correctly, a shooting session can be such an engaging and evolutionary experience. Fears fade away, words vanish in silence, and the gaze of Women blossoms. It is a miracle !! Beauty spread its flavours in silence and peace. That's it. Portraiture photography is like a prayer. Two people meet, and let the dialogue come from within. Without judging too much, without borders. In this 2nd Volume of Portraits you will find portraits of women I have never met before, that I invited for a shooting session. Most of them are not "models". Sometimes I made with my hands clothes..made with little fabrics, paper sheets,

If I can get you 1% of the same emotions I felt while taking these shots...please let me know... Buy this book, and you will bring with you moments of Beauty, Seduction and Wonder. Wrapped in all these Women eyes. Selected for your eyes. Have a nice journey.

Mastering Nikon Speedlights is the most comprehensive guide available for anyone using the Nikon Creative Lighting System. Starting with an exploration of how to measure and work with light, the book then teaches you everything you need to know about the gear and the Creative Lighting System—you'll learn the specifics of how to work with the full range of speedlights and accessories, including past models and those currently on the market, and find out how to get the best shots with your gear—whether you have a whole box of equipment or just the basics. The book also includes practical, real world photo shoots—featuring portraits, action shots, and product photography—starting with one light and gradually working up to multiple lights so you can observe the progression of the light from one flash to many. Whether you're shooting portraits, action shots, or products, Mastering Nikon Speedlights is an essential resource that teaches you how to produce the light you need to get great results for any subject.
