Ten Strategies of a World-Class Cyber Security Operations Center conveys MITRE's accumulated expertise on enterprise-grade computer network defense. It covers ten key qualities of leading Cyber Security Operations Centers (CSOCs), ranging from their structure and organization, to processes that best enable smooth operations, to approaches that extract maximum value from key CSOC technology investments. This book offers perspective and context for key decision points in structuring a CSOC, such as what capabilities to offer, how to architect large-scale data collection and analysis, and how to prepare the CSOC team for agile, threat-based response. If you manage, work in, or are standing up a CSOC, this book is for you. It is also available on MITRE's website, [www.mitre.org](http://www.mitre.org).

In this lively and provocative synthesis, distinguished historian Glen Jeansonne explores the people and events that shaped America in the decades since World War II. Comprehensive in scope, *A Time of Paradox* offers a balanced look at the political, diplomatic, social and cultural developments of the post-war period, while focusing on the diverse and sometimes contradictory human experiences that characterized this dynamic era. Designed with the student in mind, this cogent text provides the most up to date analysis available, offering insight into the divisive election of 2004, the War on Terror and the Gulf Coast hurricanes. Substantive biographies on figures ranging from Jackie Robinson to Madonna give students a more personalized view of the men and women who influenced American society over the last half century.

New York Times bestseller • Finalist for the Pulitzer Prize "This is a book to shake up the world." –Ann Patchett Nicholas Carr's bestseller *The Shallows* has become a foundational book in one of the most important debates of our time: As we enjoy the internet's bounties, are we sacrificing our ability to read and think deeply? This 10th-anniversary edition includes a new afterword that brings the story up to date, with a deep examination of the cognitive and behavioral effects of smartphones and social media.

This study uses data from 16 semi-structured interviews to assess the stressors facing immigrants from Mexico and Central America's Northern Triangle. Specifically, I examine the experience of unauthorized migration and the stress associated with the process of migration and life in the US. I rely on theories of Stress Proliferation, the *Mestiza Double Consciousness*, and the notion of *Familismo* to provide explanations for why immigrants have stressful lived experiences, starting with their experiences in their home countries and ending with difficult experiences in the US. The goal of this study is to offer insight into the Hispanic Paradox in mental health – the lower rates of illness for Hispanic Americans despite the hardships they face. My data show that immigrants face stressors before, during and after migration, and often describe living in a state of distress, but they do not necessarily conceptualize their distress the same way as the American medical model or even their children (who are American citizens) do. Being undocumented or having an undocumented parent causes a proliferation of stress that, which suggests a need for future research on whether Hispanics truly have lower rates of distress, or whether cultural differences in terms of how particularly first-generation immigrants define and describe distress are affecting the ways mental illness is perceived.

As a leader in teaching, training, and transforming boys in Detroit, Jason Wilson shares his own story of discovering what it means to "be a man" in this life-changing memoir. His grandfather's lynching in the deep South, the murders of his two older brothers, and his verbally harsh and absent father all worked together to form Jason Wilson's childhood. But it was his decision to acknowledge his emotions and yield to God's call on his life that made Wilson the man and leader he is today. As the founder of one of the country's most esteemed youth organizations, Wilson has decades of experience in strengthening the physical, mental, and emotional spirit of boys and men. In *Cry Like a Man*, Wilson explains the dangers men face in our culture's definition of "masculinity" and gives readers hope that healing is possible. As Wilson writes, "My passion is to help boys and men find strength to become courageously transparent about their own brokenness as I shed light on the symptoms and causes of childhood trauma and 'father wounds.' I long to see men free themselves from emotional incarceration-to see their minds renewed, souls weaned, and relationships restored."

#1 NEW YORK TIMES BESTSELLER • The brilliant coming-of-age-and-into-superstardom story of one of the greatest artists of all time, in his own words—featuring never-before-seen photos, original scrapbooks and lyric sheets, and the exquisite memoir he began writing before his tragic death NAMED ONE OF THE BEST MUSIC BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND THE GUARDIAN • NOMINATED FOR THE NAACP IMAGE AWARD Prince was a musical genius, one of the most beloved, accomplished, and acclaimed musicians of our time. He was a startlingly original visionary with an imagination deep enough to whip up whole worlds, from the sexy, gritty funk paradise of "Oftown" to the mythical landscape of Purple Rain to the psychedelia of "Paisley Park." But his most ambitious creative act was turning Prince Rogers Nelson, born in Minnesota, into Prince, one of the greatest pop stars of any era. *The Beautiful Ones* is the story of how Prince became Prince—a first-person account of a kid absorbing the world around him and then creating a persona, an artistic vision, and a life, before the hits and fame that would come to define him. The book is told in four parts. The first is the memoir Prince was writing before his tragic death, pages that bring us into his childhood world through his own lyrical prose. The second part takes us through Prince's early years as a musician, before his first album was released, via an evocative scrapbook of writing and photos. The third section shows us Prince's evolution through candid images that go up to the cusp of his greatest achievement, which we see in the book's fourth section: his original handwritten treatment for Purple Rain—the final stage in Prince's self-creation, where he retells the autobiography of the first three parts as a heroic journey. The book is framed by editor Dan Piepenbring's riveting and moving introduction about his profound collaboration with Prince in his final months—a time when Prince was thinking deeply about how to reveal more of himself and his ideas to the world, while retaining the mystery and mystique he'd so carefully cultivated—and annotations that provide context to the book's images. This work is not just a tribute to an icon, but an original and energizing literary work in its own right, full of Prince's ideas and vision, his voice and image—his undying gift to the world.

When Richard Collier, a dying screenwriter, becomes infatuated with Elise McKenna, a celebrated actress at the turn of the century, his love proves strong enough to bring him through time to her side.

A mother-daughter writing team reports on what's really up with kids today Science writer Robin Marantz Henig and her daughter, journalist Samantha Henig, offer a smart, comprehensive look at what it's really like to be twentysomething—and to what extent it's different for Millennials than it was for their Baby Boomer parents. The Henigs combine the behavioral science literature for insights into how young people make choices about schooling, career, marriage, and childbearing; how they relate to parents, friends, and lovers; and how technology both speeds everything up and slows everything down. Packed with often-surprising discoveries, Twentysomething is a two-generation conversation that will become the definitive book on being young in our time. "The fullest guide through this territory . . . A densely researched report on the state of middleclass young people today, drawn from several data sources and filtered through a comparative lens." —*The New Yorker*
