In a nation's
macroeconomy, income
must equal expenditure.
This is true because, in
every transaction, the
income of the seller
must be equal to the
expenditure of the
buyer. Gross domestic
product (GDP) is a
measure of the total

Online Library Principles Of M

income or total output in
the economy.

Principles of Macroeconomics Study Guide

Make a ratio of the cost of the basket for each year to the cost in the base year. Multiply each ratio times 100. Each resulting number is the value of the index for that year. Compute

Online Library Principles Of M

inflation. Inflation is the percentage change in the price index from the preceding year.

The prefix macro means large, indicating that macroeconomics is concerned with the study of the market system on a large scale. Macroeconomics considers the aggregate

Online Library Principles Of M

performance of all markets in the market system and is concerned with the choices made by the large subsectors of the economy—the household sector, which includes all consumers; the business sector, which includes all firms; and the government sector, which includes all government agencies.
