Amazon.com, Inc. (/ ' æ m ə z ɒ n / AM-ə-zon), is an American multinational technology company based in Seattle, Washington, which focuses on e-commerce, cloud computing, digital streaming, and artificial intelligence.It is considered one of the Big Five companies in the U.S. information technology industry, along with Google, Apple, Microsoft, and Facebook.

Features the original Article 2 with its new judicial interpretations and refinements. Includes new cases and problems based on current cases. Explores Article 2 revisions emphasizing substantively revised sections such as the solution to the "battle of forms" or the decision to retain a substantively changed statute of frauds. Analyzes the history of the contract/tort dichotomy underlying product liability law and the effort of the proposed Article 2 revision to clarify that body of law. Examines warranties and disclaimers, risk of loss, rejection, revocation of acceptance, cure, remedies, and other traditional structures.

The fourth edition continues the goal of earlier editions: providing the most current and comprehensive treatment of the

modern law of sales and leases in national and international transactions. The new edition includes important new cases to elaborate the continuing development of critical provisions of that law, and to elucidate new caselaw trends. The official withdrawal of proposed amendments to UCC Articles 2 and 2A provided room for these important cases without a significant increase in the size of the volume. While continuing to emphasize any significant differences between Articles 2 and 2A, the new edition eliminates separate coverage of Article 2A where its provisions replicate Article 2. At the same time, the important distinction between true leases and secured transactions disguised as leases not only continues but is emphasized in new case and text material. Among other current developments, the fourth edition recognizes the Supreme Court's important elaboration of the Federal Arbitration Act and its effect on the holdings and rationales of state courts in adjudicating claims of unconscionable arbitration agreements. The unique CISG coverage of prior editions has been updated, along with the text material throughout the volume, to provide the most current dimensions of sales law.

This casebook focuses on the contract for sale of goods under UCC Article 2. Includes discussions of legislative history and changes made in the latest drafts of Revised Article 2. The United Nations Convention on Contracts for the International Sale of Goods (CISG) is analyzed and compared. Also identifies the intersections between Article 2 and Revised Article 9. Discusses and compares the relevant sections of UCC Article 2A, and the Uniform Computer Information Transactions Act (UCITA). Finally, the relevant provisions of the Uniform Electronic Transactions Act (UETA) and the federal "E-Sign" legislation are treated as related to electronic commerce issues.
