Review: The Education of Lev Navrozov. Subtitled A Life in the Closed World Once Called Russia, this book is an autobiographical novel, but it's just as much a political history of the Soviet Union. The Education was published in 1975 by Harper's Magazine Press, and, as far as I can tell, was never reprinted. The first thing to know is that Lev Navrozov, as he admits, comes from one of the highest "castes" of Soviet society.

Lev Navrozov is a journalist, author and columnist for NewsMax.com. He has been called one of the most brilliant minds in the world, according to many distinguished Westerners and Russians. He has published over 1,000 columns and articles on the destiny of civilization, world culture, foreign policy, strategy, defense, and intelligence work since his emigration from Russia in 1972.

When he visited Israel in 1975, Saul Bellow kept an account of his experiences and impressions. It grew into an impassioned and thoughtful book. As he wryly notes, "If you want everyone to love you, don't discuss Israeli politics." But discuss them is very much what he does. Through quick sketches and vignettes, Bellow evokes places, ideas, and people, reaching a sharp picture of contemporary Israel. The reader is offered a wonderful panorama of an ancient and modern world city. Like every other visitor to Israel, Bellow tumbles into "a gale of conversation." He loves it and he makes the reader feel at home. Bellow delights in the liveliness, the gallantry of Israeli life: people on the edge of history, an inch from disaster, yet brimming with argument and words. He delights not in tourist delusions but with a tough critical spirit: his Israel is pocked with scars and creases, and all the more attractive for it. Simply as a travel book, the reader finds remarkable descriptions, such as one in which Bellow finds "the melting air" of Jerusalem pressing upon him "with an almost human weight" Something intelligible is communicated by the earthlike colors of this most beautiful of cities. The impression that Bellow offers is that living in Israel must be as exhausting as it is exciting: a murderous barrage on the nerves. Israel, he writes, "is both a garrison state and a cultivated society, both Spartan and Athenian. It tries to do everything, to make provisions for everything. All resources, all faculties are strained. Unremitting thought about the world situation parallels the defense effort." Jerusalem's people are actively and individually involved in universal history. Bellow makes you share in the experience.

This compelling account concludes Nobel Prize-winner Aleksandr Solzhenitsyn's literary memoirs of his years in the West after his forced exile from the USSR following the publication of *The Gulag Archipelago*. The book reflects both the pain of separation from his Russian homeland and the chasm of miscomprehension between him and Western opinion makers. In *Between Two Millstones*, Solzhenitsyn likens his position to that of a grain that becomes lodged between two massive stones, each grinding away—the Soviet Communist power with its propaganda machine on the one hand and the Western establishment with its mainstream media on the other. Book 2 picks up the story of Solzhenitsyn's remarkable life after the raucous publicity over his 1978 Harvard Address has died down. The author parries attacks from the Soviet state (and its many fellow-travelers in the Western press) as well as from recent émigrés who, according to Solzhenitsyn, defame Russian culture, history, and religion. He shares his unvarnished view of several infamous episodes, such as a sabotaged meeting with Ronald Reagan, aborted Senate hearings regarding Radio Liberty, and Gorbachev's protracted refusal to allow *The Gulag Archipelago* to be published back home. There is also a captivating chapter detailing his trips to Japan, Taiwan, and Great Britain, including meetings with Margaret Thatcher and Prince Charles and Princess Diana. Meanwhile, the central themes of Book 1 course through this volume, too—the immense artistic quandary of fashioning *The Red Wheel*, staunch Western hostility to the historical and future Russia (and how much can, or should, the author do about it), and the challenges of raising his three sons in the language and spirit of Russia while cut off from the homeland in a remote corner of rural New England. The book concludes in 1994, as Solzhenitsyn bids farewell to the West in a valedictory series of speeches and meetings with world leaders, including John Paul II, and prepares at last to return home with his beloved wife Natalia, full of misgivings about what use he can be in the first chaotic years of post-Communist Russia, but never wavering in his conviction that, in the long run, his books would speak, influence, and convince. This vibrant, faithful, and long-awaited first English translation of *Between Two Millstones*, Book 2, will fascinate Solzhenitsyn's many admirers, as well as those interested in twentieth-century history, Russian history, and literature in general.

... dedicated to the advancement and understanding of those principles and practices, military and political, which serve the vital security interests of the United States.

The Munich crisis of 1938, in which Great Britain and France decided to appease Hitler's demands to annex the Sudetenland, has provoked a vast amount of historical writing. But historians have had, until now, only a vague understanding of the roles played by the Soviet Union and by Czechoslovakia, the country whose very existence was at the center of the crisis. In *Czechoslovakia Between Stalin and Hitler*, Igor Lukes explores this turbulent and tragic era from the new perspective of the Prague government itself. At the center of this study is Edvard Benes, a Czechoslovak foreign policy strategist and a major player in the political machinations of the era. The work analyzes the Prague Government's attempts to secure the existence of the Republic of Czechoslovakia in the treacherous space between the millstones of the East and West. It studies Benes's relationship with Joseph Stalin, outlines the role assigned to Czechoslovak communists by the VIIth Congress of the Communist International in 1935, and dissects Prague's secret negotiations with Berlin and Benes's role in the famous Tikhachevsky affair. Using secret archives in both Prague and Russia, this work is an accurate and original rendition of the events that sparked the Second World War.
