As new explicit knowledge is shared throughout an organization, other employees begin to internalize it. They use it to broaden, extend, and reframe their own tacit knowledge. This starts the spiral of knowledge all over again, but this time at a higher level. Articulation and Internalization are the critical steps in this spiral of knowledge.

Knowledge creation refers to the continuous combination, transfer, and conversion of different kinds of knowledge. This occurs as users interact, practice and learn. Put simply, it is the creation of ideas, which is at the heart of a company ' s competitive advantage. Competitive advantage is what a company has when it has the edge over its rivals. Specifically, when it has the edge regarding the provision of a certain product or service.
