DO YOU WANT YOUR LIFE TO BE PERFECT? We're all laboring under our own and society's expectations to be perfect in every way—to look younger, to make more money, to be happy all the time. But according to Tal Ben-Shahar, the New York Times bestselling author of *Happier*, the pursuit of perfect may actually be the number-one internal obstacle to finding happiness. **OR DO YOU WANT TO BE HAPPY?** Applying cutting-edge research in the field of positive psychology—the scientific principles taught in his wildly popular course at Harvard University—Ben-Shahar takes us off the impossible pursuit of perfection and directs us to the way to happiness, richness, and true fulfillment. He shows us the freedom derived from not trying to do it all right all the time and the real lessons that failure and painful emotions can teach us. **YOU DON'T HAVE TO BE PERFECT TO BE PERFECTLY HAPPY!** In *The Pursuit of Perfect*, Tal Ben-Shahar offers an optimal way of thinking about failure and success--and the very way we live. He provides exercises for self reflection, meditations, and "Time-Ins" to help you rediscover what you really want out of life. Praise for Tal Ben-Shahar's *Happier*:

How the greatest thinkers in finance changed the field and how their wisdom can help investors today Is there an ideal portfolio of investment assets, one that perfectly balances risk and reward? In *Pursuit of the Perfect Portfolio* examines this question by profiling and interviewing ten of the most prominent figures in the finance world—Jack Bogle, Charley Ellis, Gene Fama, Marty Leibowitz, Harry Markowitz, Bob Merton, Myron Scholes, Bill Sharpe, Bob Shiller, and Jeremy Siegel. We learn about the personal and intellectual journeys of these luminaries—which include six Nobel Laureates and a trailblazer in mutual funds—and their most innovative contributions. In the process, we come to understand how the science of modern investing came to be. Each of these finance greats discusses their idea of a perfect portfolio, offering invaluable insights to today ' s investors. Inspiring such monikers as the Bond Guru, Wall Street ' s Wisest Man, and the Wizard of Wharton, these pioneers of investment management provide candid perspectives, both expected and surprising, on a vast array of investment topics—effective diversification, passive versus active investment, security selection and market timing, foreign versus domestic investments, derivative securities, nontraditional assets, irrational investing, and so much more. While the perfect portfolio is ultimately a moving target based on individual age and stage in life, market conditions, and short- and long-term goals, the fundamental principles for success remain constant. Aimed at novice and professional investors alike, *In Pursuit of the Perfect Portfolio* is a compendium of financial wisdom that no market enthusiast will want to be without.

Jack Hemlick was a perfectionist and hated losing at anything. So, when an argument with his sister Kathryn goes too far and she kicks him out of her luxurious home, he decides to take up an offer to spend two weeks at a new island resort in the South Pacific. Hoping that the break would do them both good, Jack is first whisked to Panama in a private jet and then to the resort in a gigantic helicopter. It seemed that no expense was to be spared as his hosts pulled out all the stops to make sure that he was going to be well looked after. But once there he soon discovers that everything is almost too good to be true. Why was he invited to spend a vacation at no expense in this tiny island that seems to provide everything anyone would ever want? Who is the enigmatic Dr. Ladmile? And will this trip fix the rift between Jack and Kathryn, or just make the gulf between them even wider? Jack is about to find out that perfection isn't always the best.

What does it mean to live in a time when medical science can not only cure the human body but also reshape it? How should we as individuals and as a society respond to new drugs and genetic technologies? Sheila and David Rothman address these questions with a singular blend of history and analysis, taking us behind the scenes to explain how scientific research, medical practice, drug company policies, and a quest for peak performance combine to exaggerate potential benefits and minimize risks. They present a fascinating and factual story from the rise of estrogen and testosterone use in the 1920s and 1930s to the frenzy around liposuction and growth hormone to the latest research into the genetics of aging. The Rothmans reveal what happens when physicians view patients' unhappiness and dissatisfaction with their bodies—short stature, thunder thighs, aging—as though they were diseases to be treated. *The Pursuit of Perfection* takes us from the early days of endocrinology (the belief that you are your hormones) to today's frontier of genetic enhancements (the idea that you are your genes). It lays bare the always complicated and sometimes compromised positions of science, medicine, and commerce. This is the book to read before signing on for the latest medical fix.

Girl, read your Bible. You can eat all the kale, buy all the things, lift all the weights, take all the trips, trash all that doesn't spark joy, wash your face and hustle like mad, but if you don't rest your soul in Jesus, you'll never find peace and purpose. You've had enough of the hustle. You've given up trying to meet social media's impossible standards, and you're done living a life ruled by busyness. But where do you go from here? For Alisha Illian, it wasn't until she learned to abide in God's truth that she finally found fulfillment. In *Chasing Perfect*, Alisha shares how God awakened her heart to prioritize what matters to Him. She'll help you learn what it means to look beyond each day's diversions and live in surrender to the Savior. You'll see why it's so important to... separate yourself from the self-first attitude of self-help culture savor each blessing God has given you schedule—rather than squeeze in—daily time to spend with God You don't have to keep filling your calendar to the brim with unsatisfying distractions. *Chasing Perfect* will help you submit to God and experience His perfect renewal and rest.

The life and career of Nicklas Lidstrom almost reads like a real-life hockey fairy tale. Drafted by the Detroit Red Wings as a 19-year-old defenseman out of his native Sweden, Lidstrom spent the next two decades manning the Motor City blueline. During those years he became a Hockeytown legend, amassing a mind-boggling collection of accomplishments and accolades: four Stanley Cups, seven Norris Trophies as the NHL's best defenseman, a Conn Smythe Trophy, 12 All-Star selections, and gold medals in both the Olympics and World Championships. Off the ice, life appears equally idyllic: Lidstrom is uniformly respected and admired by opponents, observers, and teammates alike, and he and his wife of more than 20 years have four boys who split their time between Sweden and their adopted homeland. Perhaps only one question remains unanswered about the man teammates referred to as the Perfect Human: exactly how did he do it? In *Nicklas Lidstrom: The Pursuit of Perfection*, the Hall of Fame defenseman and a who's-who of hockey luminaries investigate and reveal precisely how he made dominating the game he loves appear so effortless. How did an unimposing prospect catch the eye of Red Wings scouts during an era when few Swedes made it to the NHL? What was the secret to his remarkable endurance and longevity, allowing him to miss just 44 games in 20 grueling NHL seasons? And what level of preparation and study was required to transform a man who was not the biggest or fastest at his position into one of the greatest defensemen in hockey history? You'll find the answers to all of this and more in *Nicklas Lidstrom: The Pursuit of Perfection*
