Introduction for Policymakers...

The goal of developmental education is to improve students' skills to increase their chances of success in a credit-bearing, college-level program. However, barriers on campus and in federal, state and institutional policies can slow students' progress toward a degree, which has long-term implications for students and states.

Developmental Education - Education Commission of the States

The field of developmental education supports the academic and personal growth of underprepared college students through instruction, counseling, advising, and tutoring. The clients of developmental education programs are traditional and nontraditional students who

economy scholars to refer to the phenomenon of state-led macroeconomic planning in East Asia in the late 20th century. In this model of capitalism, the state has more independent, or autonomous, political power, as well as more control over the economy. A developmental state is characterized by having strong state intervention, as well as extensive regulation and planning. The term has subsequently been used to describ
