Why do you believe what you believe? You ' ve been lied to. Probably a lot. We ' re always stunned when we realize we ' ve been deceived. We can ' t believe we were fooled: What was I thinking? How could I have believed that? We always wonder why we believed the lie. But have you ever wondered why you believe the truth? People tell you the truth all the time, and you believe them; and if, at some later point, you ' re confronted with evidence that the story you believed was indeed true, you never wonder why you believed it in the first place. In this incisive and insightful taxonomy of lies and liars, New York Times bestselling author Aja Raden makes the surprising claim that maybe you should. Buttressed by history, psychology, and science, The Truth About Lies is both an eye-opening primer on con-artistry—from pyramid schemes to shell games, forgery to hoaxes—and also a telescopic view of society through the mechanics of belief: why we lie, why we believe, and how, if at all, the acts differ. Through wild tales of cons and marks, Raden examines not only how lies actually work, but also why they work, from the evolutionary function of deception to what it reveals about our own. In her previous book, Stoned, Raden asked, “ What makes a thing valuable? ” In The Truth About Lies, she asks “ What makes a thing real? ” With cutting wit and a deft touch, Raden untangles the relationship of truth to lie, belief to faith, and deception to propaganda. The Truth About Lies will change everything you thought you knew about what you know, and whether you ever really know it.

The instant New York Times bestseller from legendary investment guru Ric Edelman, who presents a prescient personal finance guide on how technology and science will reshape the way we save, invest, and plan for the future. In The Truth About Your Future, award-winning financial advisor Ric Edelman reveals how technology and science are evolving at a blistering, almost incomprehensible pace—with profound implications for your personal finances. Ric radically upends traditional financial planning, showing that you need not just one financial plan, but three—one for now, one for later and one for much later. He explains: Why you ' re likely to live much longer—and the impact on your financial future; how you must alter your plans to shift from the familiar linear lifeline (school-job-retirement-death) to the new cyclical lifeline; the importance of Career Planning—even if you ' re in your fifties or sixties; how to invest in tech companies and how to generate income from your investments; why nursing homes are becoming obsolete—and with them, long-term care insurance policies, and what this means for you; how to protect your digital assets; and how you ' ll spend your time—and money—in retirement, and why the future will be the happiest time of your life. The traditional paradigms of how we live, learn, and invest are shifting under our feet. Fortunately, Ric Edelman has seen the future, and in The Truth About Your Future he illustrates how smart investors can adapt and thrive in today ' s changing marketplace. Newcomers and loyal Edelman followers alike will find value in his proven advice and trademark humor. This is a must-have guide for anyone serious about successfully adapting to the ever-evolving financial landscape.

“ How do we navigate the moments of life with wisdom beyond our years and face the temptations of our hearts with courage and resolve? In The Truth about Lies, Tim leads us into a new place, setting a new framework for how to live and how to live well. If you ' re ready to take the journey, I can ' t think of a better guide. ” John Mark Comer, pastor of teaching and vision for Bridgetown: A Jesus Church, and author of Loveology Temptation isn ' t merely about winning or losing a battle. It ' s about discovering who you truly are. And what matters most. On a daily basis, we are all tempted to enjoy the gifts of this world while making the Giver optional or irrelevant in our quest for life. But what if, in God ' s purposes, temptation is not merely an obstacle to overcome but an opportunity to flourish in faith? Living in the truth exposes lies and turns moments of temptation into character-shaping opportunities, powerfully displaying our true identity as followers of Jesus.
