Euthanasia is the act of deliberately ending a person's life to relieve suffering. For example, it could be considered euthanasia if a doctor deliberately gave a patient with a terminal illness a drug they do not otherwise need, such as an overdose of sedatives or muscle relaxant, with the sole aim of ending their life. Assisted suicide is the act of deliberately assisting another person to kill themselves.

to kill the patient euthanasia

Euthanasia is when a person's life is ended because of disease or pain, which has made them suffer.This is different from assisted suicide, where a person helps someone kill themselves.It is also different to murder, where the reason is not suffering, but to kill for the killer's own ends.Euthanasia can be voluntary, where the person who dies asks for help in ending their life.

Euthanasia - Simple English Wikipedia, the free encyclopedia

Active euthanasia is morally better because it can be quicker and cleaner, and it may be less painful for the patient. Doctors faced with the problem of an incurable patient who wants to die have...
