Depicts the life of Benjamin Franklin and his accomplishments as printer, inventor, and statesman

A brief biography of the 18th-century printer, inventor, and statesman who played an influential role in the early history of the United States.

A brief biography of the 18th-century printer, inventor, and statesman who played an influential role in the early history of the United States.

Ziggy loves coming up with new inventions. Unfortunately, though, most of his inventions just don't work out, like the square 'Ziggyball' or the 'shulstilts' he makes for Rabbi Levi. Ziggy's father sells buns for Moishe the Baker, but Mrs. Schwartz always complains that the buns are undercooked at the center. That's when Ziggy puts his creative mind to work, with his idea for making the bakers buns tastier and easier to carry, leading to the creation of one of the worlds favorite treats - the bagel! Bagel recipe included.

The Big Ideas in Physics and How to Teach Them provides all of the knowledge and skills you need to teach physics effectively at secondary level. Each chapter provides the historical narrative behind a Big Idea, explaining its significance, the key figures behind it, and its place in scientific history. Accompanied by detailed ready-to-use lesson plans and classroom activities, the book expertly fuses the 'what to teach' and the 'how to teach it', creating an invaluable resource which contains not only a thorough explanation of physics, but also the applied pedagogy to ensure its effective translation to students in the classroom. Including a wide range of teaching strategies, archetypal assessment questions and model answers, the book tackles misconceptions and offers succinct and simple explanations of complex topics. Each of the five big ideas in physics are covered in detail: electricity forces energy particles the universe. Aimed at new and trainee physics teachers, particularly non-specialists, this book provides the knowledge and skills you need to teach physics successfully at secondary level, and will inject new life into your physics teaching.

50 Big Ideas You Really Need to Know is a concise, accessible and popular guide to the central tenets of Western thought. Every important principle of philosophy, religion, politics, economics, the arts and the sciences is profiled in a series of short illustrated essays, complemented by an informative array of timelines and box features.

Interesting facts about some of the world's biggest things.

Ben Franklin loved to swim and, at the age of 11, he was determined to swim like a fishWith fins and all! This fascinating and lively account of young Ben's earliest invention follows the budding scientist's journey as he tests and retests his swim fins. Includes Franklin quotes, a timeline, bibliography, and source notes. Full color.

Seven-year-old Bean is too young to go to the camp her sister Nancy is attending, so she and her best friend Ivy decide to create their own camp.
